

STÖBER

THE COOL SOLUTION

The construction of a STÖBER Synchronous Servo Geared motor lends itself to a cooler running temperature overall!

UP TO 12% REDUCTION IN TEMPERATURE VERSUS THE COMPETITION

Heat is the natural enemy of a gearbox – so why not bring that down? In a study performed in our labs, our STÖBER Synchronous Servo Geared motor could run up to 14 degrees (F) cooler than the competition – cool, right?

Benefits of STÖBER Geared Motor

- Single Supplier
- Ease of installation
- Save money

HEAT CAN KILL

Packaging machines often run at higher speeds, increasing ambient temperature. Using a STÖBER geared motor can reduce heat and add to equipment life.

STÖBER stays cool against the competition!

THE COOLEST OPTION

Add a fan to bring down the temperature even more!

STÖBER

Our Three Pillars

STOBER is your **trusted partner** in providing the ultimate customer experience. From unsurpassed quality to rapid response support to fast delivery, we are the **gold standard** for gearboxes.

With the new STOBER Configurator, engineers and designers will save time in product selection and designing. Everything is a simple click away!

24/7 Support
Built in less than 1 week

Aftermarket Repair and Replacement done in USA

Committed to **optimizing your production** and machine design
